Planting Seeds for a Bright Future

by Chuck Potucek, City Manager

AS THIS ISSUE OF *VISTAS* GOES TO PRESS, many residents are starting to gather seeds, prepare soil, and get their gardens ready for the coming spring.

Here at the City, we're sitting down with the new City Council to facilitate the council's two-year Strategic Plan. Much like planting a garden, it's an exciting process that holds much promise for the future. And just like your garden at home, City plans take time to germinate and grow.

Attendees to our Spotlight Breakfast in 2017 may remember receiving a little pot of soil with basil seeds that said, "planting seeds for a bright future." At that state-of-the-city event we highlighted how a focus on expanding outdoor recreational opportunities would help the City thrive down the road. It's extraordinary to see how quickly those seeds have sprouted and taken root.

Back in 2017, we were celebrating Sierra Vista's newly-earned Bicycle-Friendly Community designation. Now, thanks not just to our efforts but to those of the local cycling community, the City is home to El Tour de Zona, a three-day bicycle festival that will bring in about 1,000 visitors to our community for the second-straight year in March.

And residents can see how projects that were seeded by good planning continue to spring up in our City complexes. The cover story in this edition details how an energy initiative with Schneider Electric has already borne fruit, even as its second phase ushers in more major improvements. By creating an environment for tournaments and athletic events to thrive, we've enabled our local sports organizations to bring in many new visitors and dollars into our community via competitive play.

Since 2017, we've also grown new signature City events and enhanced some of our old traditions. Now

we're looking forward to the sixth editions of our annual Sky Islands Summit Challenge and Wine, Beer, & Spirits Festival. And this winter we expanded our holiday festivities to include an ice rink that attracted more than 7,500 people!

We have also been tilling the earth in the West End, completing the first phase of a streetscape project that has been in the works for many years. Now we're in the design phase to take the new streetscape already installed along Fry Boulevard north to Garden Avenue. We expect to begin construction on Garden later this year as part of our multi-faceted strategy to revitalize the historic end of town.

As we begin to see the fruits of so many plans and projects, I also want to reflect on the past mayors and council members who helped plant those seeds. I'd especially like to highlight former Mayor Rick Mueller who left office in December after spending about 22 years as a council member and mayor.

In February, Mueller was named one of 17 2023 local Defense Community Champions by the Association of Defense Communities and we just learned he's been honored as one of three national champions. This well-deserved award recognizes Mueller's decades of leadership that have been instrumental in maintaining a close partnership with Fort Huachuca for the benefit of the community and the installation.

Now it's a new mayor and council's turn to take the good work done so far and help us tend to and expand the garden we all share. As spring begins to take hold and we work with the council to define the City's next steps, I'm excited to see how these new efforts take root and grow in the future.

Energy Initiative Tackles Big Projects

RESIDENTS DRIVING ALONG MARTIN LUTHER King Jr. Parkway by Veterans Memorial Park lately have seen a flurry of activity at the old Apache Middle School sports facilities.

The school's old football field and track are being replaced with a modernized facility featuring artificial turf, LED lights, and bleachers to seat 1,600 people to view both football and soccer games. Eye-catching as they are, these improvements headline a much deeper story as the City completes the second phase of an energy initiative that has already produced big results for our community without adding any new burden on local taxpayers.

The first phase of the City's energy initiative with Schneider Electric was completed in 2019 and resulted in five artificial turf soccer fields, upgraded lighting at 17 sports fields and courts, and numerous updates to City facilities. The sports improvements enabled local sports organizations to attract 28 tournaments between 2019 and 2021, bringing in about 11,940 visitors, and generating an economic impact of about \$3.3 million to the community.

"We have seen tremendous results from our first phase of this initiative, with improvements generating significant savings and economic impact," Assistant City Manager Victoria Yarbrough says. "Field

and sports facility upgrades have enabled us to assist local sports organizations with attracting numerous tournaments that have brought in new dollars and new visitors to our community."

By using an energy performance contract, the City is able to secure guaranteed energy savings to help pay off the cost of the projects over time. Seeing the success in terms of energy performance, water savings, and economic activity from that first phase, the City moved forward with funding the next phase in 2022 and now work is well underway on numerous projects at City facilities.

Phase II Projects Underway

The centerpiece of phase II, improvements at the City's Veterans Memorial Park Sports Complex extend well beyond the football field and track.

The complex, located behind the City of Sierra Vista Sports Division, will also feature two new lighted basketball courts, lights at the tennis courts and future sand volleyball courts, plus the inversion and improvements of the softball field. ADA accessible pathways between parking and facilities are also being constructed.

And the energy initiative extends well beyond just this area. It advances the City's commitment to responsible energy and water use with the installation of a smart irrigation system citywide, significant renovations at The Cove, solar covered parking at several City facilities, a roof replacement at City Hall, upgrades at the Sierra Vista Municipal Airport, and the installation of EV charging stations in several parking lots.

Upgrades at The Cove include replacing the aquatic center's sand filters with diatomaceous earth filters that do not require backwashing. These filters save water and staff time, while also improving water clarity. The facility's pumps have also been replaced with variable speed pumps and equipment has been installed to bring chlorine production in-house.

Together, all these phase II projects are estimated to generate more than \$37 million in savings and \$101 million in economic impact over their 25-year life-cycle. They will save more than 6 million gallons of water each year. And the projects advance key strategic priorities set by the City Council, to include a goal to generate an additional \$3 million in sports tourism over the next two years.

No New Taxes

To fund this phase II energy initiative, the City issued about \$24 million in Municipal Facility Revenue Bonds and also received a \$1.5 million grant from the Land Water Conservation Fund.

The grant assisted with the installation of a 150,000-gallon tank for water and irrigation at Veterans Memorial Park, plus other improvements to the City's well that serves the park and adjacent sports complex.

And taxpayers need not worry, as the debt service on the bonds will be repaid with a dedicated portion of the City's sales tax collection reserved for capital improvements. The energy savings guaranteed by Schneider Electric will help pay off the debt service over time and taxes were not increased to tackle this initiative.

The City is in good position to take on the debt service because it paid off existing bond debt two years early in January 2022. These bonds, originally issued in 2000 and 2008, enabled the City to complete major City projects to include the police station expansion, fire station 3, the Centennial Pavilion, the Nancy J. Brua Animal Care Center, the Pedro Castro Maintenance Center, Cyr Center Park, and The Cove. They amounted to more than \$38 million.

Maintaining a relatively low debt burden and prioritizing early repayment has helped the City maintain healthy bond ratings even throughout the last economic recession.

Listen in to Learn More

Teaming up with local sports organizations to make Sierra Vista an attractive destination for competitive play has been a longtime dream of Parks, Recreation, and Library Director Laura Wilson.

Wilson raised her children in Sierra Vista and was a sports mom tied in with local clubs well before she took on a leadership role with the City. Having spent time on both sides of the fence has given her a unique perspective, making the completion of these improvements and the community's response especially meaningful.

"It has been the greatest professional joy of my life," Wilson says.

To hear much more about the phase II energy initiative and Laura Wilson's story, listen to the January 27 episode of the City's podcast *Let's Talk Sierra Vista*. You can find it on your podcast app of choice or access it directly at SierraVistaAZ.gov/Lets-Talk.

Moving Forward

Partner with the City to Improve Neighborhoods

RESIDENTS ARE INVITED TO PARTNER WITH their neighbors and the City to help clean up and improve local neighborhoods through a volunteer program and a grant opportunity.

“We want to encourage residents to join together to beautify local neighborhoods and assist neighbors who could use a helping hand,” Community Development Director Matt McLachlan says. “This is a great way to foster a sense of pride in your neighborhood and get to know your neighbors by working together to achieve a common goal.”

Neighborhood Partner Program

The City’s new Neighborhood Partner Program enables residents to form a group of at least five people dedicated to caring for a particular neighborhood by conducting cleanups, reporting hazards, and clearing away obstructions on rights-of-way. This could include helping neighbors who need assistance with issues on their properties like overgrowth and the removal of bulky items.

This program is intended to help bring neighbors together with a common goal of beautifying neighborhoods and helping others. Many hands with a mission can make the impossible happen!

The City will assist with coordination, supply trash

bags, and pick up the bags once filled. A minimum commitment of two years is required to participate in the program.

To participate, get a group of at least five members together. Select a group leader and alternate. Learn more and complete the process by downloading the application online at SierraVistaAZ.gov/Neighborhood-Partners For assistance, please call 520-417-4413.

Neighborhood Partnership Grant

The City is also offering a Neighborhood Partnership Grant that can be applied for with or without participation in the Neighborhood Partner Program.

The grant of up to \$2,500 is open to organizations, businesses, and groups of five or more individuals. It must be used for a project on City-owned property or right-of-way in a local neighborhood and the project must benefit the community.

Applicants are encouraged to reach out to the City’s Community Development Department at 520-417-4413 early in the planning process to talk through their project prior to submitting an application. The grant application is available at SierraVistaAZ.gov/Neighborhood-Partners.

Adopt an Area

Are you looking for another way to keep public spaces in Sierra Vista looking clean and beautiful? Consider joining the City’s Adopt an Area program and doing a little spring cleaning!

Families, groups, and organizations can adopt a public amenity like a section of multi-use path or street, a park, a wash, or even an event! Participants then care for their adopted area by:

- Picking up litter
- Raking
- Pulling weeds
- Reporting hazards and nuisances

The City will provide trash bags and pick up the bags once filled for disposal.

Residents can view adoptable areas and events online at SierraVistaAZ.gov/our-city/adopt-an-area. An application with more information is also available on that page.

For more information or assistance, email Jessica.Vannoy@SierraVistaAZ.gov or call 520-439-2157.

GET A TOILET REBATE!

Did you know that the City offers toilet rebates when you replace a high flow toilet with an EPA WaterSense-approved toilet?

Depending on your water savings you may be eligible for a rebate of \$50 to \$100! Learn more and apply today at: SierraVistaAZ.gov/toilet-rebate.

Vista Transit Pilots Fare Free Program

“These changes are necessary to continue serving our riders who rely on Vista Transit to get around town, while we bring more drivers on-board and get them up to speed with training,” says Chanel Kirkpatrick, external operations manager for the Public Works Department. “We’ve heard how vital extending hours in the morning is to help folks get to work and we are making every effort to meet our riders’ needs despite ongoing challenges with staffing.”

For more information, go to SierraVistaAZ.gov/our-city/bus-service/route-information.

STARTING MARCH 1, RESIDENTS CAN RIDE Vista Transit buses for free.

This fare free pilot program continues through August 31, when its results will be evaluated and a determination will be reached on whether to continue without fares. The change impacts both Vista Transit’s fixed route and paratransit services.

“This program will benefit everyone who currently relies on Vista Transit to get around town. We hope it will also help increase ridership,” says Chanel Kirkpatrick, external operations manager for the Public Works Department.

Vista Transit is largely supported through federal grants that are based on ridership totals, so attracting more riders would bring in more funding. While charging fares brings in some additional revenue, it accounts for a small share of transit’s funding and is mostly offset by costs associated with collecting fares to include staff time, merchant fees, and equipment maintenance.

“Going fare free relieves a burden on our riders, while also simplifying operations for our staff,” Kirkpatrick says. “This is especially important as we continue to operate with limited staffing and reduced routes.”

Bus Service Adjusted Due to Staff Shortage

Starting February 27, Vista Transit temporarily further consolidated routes and began offering on-demand bus stops at key locations no longer served by a fixed-route due to a shortage of transit drivers. Paratransit continues to operate without changes.

The changes eliminated the Saturday Red Route and consolidated the Blue Route and Yellow Route, available Monday through Friday, into a new Pink Route. The Pink Route will operate from 7 a.m. to 5 p.m. on weekdays, restoring 1 hour of service in the morning to aid riders traveling to work. The weekday routes have been operating from 8 a.m. to 5 p.m. since December 2022.

Vista Transit will also begin offering on-demand bus stops in areas not served by the Pink Route. Signs are posted at these locations directing riders to text 520-417-4888 to arrange for a ride to the Transit Center, a transfer onto the Pink Route, or to another on-demand bus stop. Riders can also call but texting is preferred. These on-demand stops will be served from 7:15 a.m. to 4:15 p.m. on a first-come, first-served basis.

GET GRADE A+ COMPOST

The City of Sierra Vista turns the green waste it collects from refuse customers into top quality compost available for purchase!

Compost is available for \$25 per cubic yard and mulch is available for \$10 per cubic yard (cash or check only). City staff will load your compost into a pickup bed or trailer.

Get your compost at the City Compost Facility located at 7201 E. Highway 90, near mile marker 325. The Compost Facility is open from 8 a.m. to 2:30 p.m. Monday, Tuesday, and Thursday through Saturday. To learn more, call 520-452-7072.
